The organizing company is exempt from any liability for the breach of these obligations by the exhibitor, the Exhibitor must respond directly to possible penalties and, if the Organizer is affected, reserves the right to repeat against the contractor in claim of how many legal actions there are for the payment of economic sanctions as well as relevant interests and costs, in accordance with current legislation.

#### **4.- RESTRICTIONS**

**It is strictly forbidden to smoke in any enclosed space of the fairgrounds.** Therefore, we ask for maximum collaboration from all the exhibitors so that the current regulations are complied with.

The use of stickers/adhesives outside the stands will not be allowed, and within them they should not leave a trace, being the exhibitor/advertiser in charge of the expenses of their removal/cleaning.

No object, advertising element or piece of furniture may exceed the boundaries of the stands; also emergency exits and corridors must be completely free of advertising.

In **Spannabis Barcelona 2019** advertising cannot be distributed outside the space contracted and bounded as a stand. In order to preserve and care for our environment, the **Spannabis** Organization has decided to apply this regulation in all its events.

The Directorate of Fira de Cornellá may apply economic sanctions to those companies that do not respect common spaces, floors, and walls.

**During the fair it will not be allowed either:**

- Any use of flammable, toxic or dangerous products.
- Make smoke, flames, sparks, fires or high temperatures.
- Plug in electrical equipment in unauthorized outlets.
- The use of drones in all the facilities.

To avoid noise pollution **it is not allowed to play music and/or make any kind of noisy performance in the exhibition areas**, except for the stands of the outdoor plaza. Therefore, the installation of any sound equipment in the stand will not be allowed.

Any promotional act that could endanger the safety of those attending the event (throwing objects, causing avalanches, firing balls, arrows, etc.) is prohibited.

It is absolutely forbidden to expose cannabis plants as well as any unauthorized plant/substance (see listing at [http://www.spannabis.com/pdf/listado\\_sustancias\\_prohibidas.pdf](http://www.spannabis.com/pdf/listado_sustancias_prohibidas.pdf)).

Nor will the exhibition, promotion and/or sale of any kind of legal highs be allowed (more information at <https://energycontrol.org/infodrogas/otras/rcs-legal-highs-nuevas-sustancias-de-sintesis.html>).

**CBD PRODUCTS STANDARDS**

According to the criterion of AECOSAN (Spanish Agency for Consumption, Food Safety and Nutrition), the regulator of food supplements in Spain, cannabidiol (CBD) is not among the substances authorized by Royal Decree RD1487 / 2009, relating to food supplements, nor in Royal Decree RD 130/2018, which modifies the previous one, so its use in food supplements in Spain is not allowed.

Likewise, cannabidiol (CBD), at the level of the European Union, is considered to be unauthorized new food, so the application of the principle of mutual recognition to the aforementioned products from third countries of the European Union will not be admissible. This will be the case until cannabidiol (CBD) is authorized as "new foods", based on Rgto. (EU) no. 2015/2283. This would not affect the cosmetic products, since it is not AECOSAN's competence.

From the point of view of flowers, oils, and extracts (included e-liquids with cannabinoids), they are also illegal, since, although they do not contain THC, they are useful controlled parts of the plant, separated without authorization from the AEMPS (Spanish Agency for Medicines and Health Products).

If any inspection occurs, both by the authorities and by Spannabis personnel, and any of these products are exposed or sold, the stand will be canceled and closed immediately.

We ask our clients to act accordingly and not to bring to Spannabis these products, which are not regulated and are being confiscated in different events and companies.
